

Dan Lenard, "Home Studio Master"

Tawny Platis is a talented voice actor with a unique voice and style that sets her apart from other women in the field. She can perform many age groups, and styles. I highly recommend her for any voice job in any genre, Podcasting, corporate reads, ELearning and commercials!

Alan Landers, Creating the World's Most Comprehensive Certificate Program in OD & Change Leadership with the Drucker Graduate School

I was and I am now one of Tawny's clients. In addition to thinking she has a great voice for the eLearning program we are creating, Tawny is a dedicated professional who is willing to go the extra mile to ensure that her work meets my specifications. She's quick, precise and is able to identify those words and phrases that need special emphasis. My partner and I are extremely please with the work Tawny has done for us. We will continue to use her going forward. I've produced commercial videos and worked with SAG/AFTRA talent. Tawny is on a par with most and far better than many I've hired in the past. I recommend her, without reservation, to anyone doing eLearning programs or other types of VO work.

Doug Cooke, Voice Actor, Actor, Graphic Artist, Video Editor

Tawny is not only an extremely talented voice actor, but an amazing coach as well. She has taken the time on a number of occasions to teach me voice over technique and marketing my business because she takes an active interest in anybody or business she works with. She develops and sustains relationships, because she understands that that is the foundation for being a successful business owner. Tawny is an absolute pleasure to work with and I highly recommend her as the voice for your project or a mentor if you're an aspiring voice actor!
